EXPERIENCE

Sakara Tech Solutions

Position: Front End Web Developer

2019 - 2021-01-02

This was where my career took started . I joined Sakara Tech Solutions as a junior front end developer at the time .it was a lovely place to work in with plenty of opportunities to choose from but later the company shut down.

Webmax Solutions Pty Ltd

Position: Full stack Web Developer (freelance)

2021-02-15 - present

Currently working as a Full Stack Web Developer at Webmax Solutions, it's been a lovely experience working with them, the reason I'm applying for another position is because the company is laying off freelance developers.

Mega Tee Arts

Position: Graphic Designer (part time)

2020- 2023

I learnt a lot in using design tools like AI , AP ,sketch and Figma from this company. Some skills which I still use in my Web Development career.

EDUCATION

Mawewe High School

Matric

2018

Oracle Academy

Currently Studying a 6 months Java Developer Certification
